The project was applauded by the council for its attention to detail, and overall fit for Old Town Temecula. Councilman Mike Naggar commented, “This is the final installment on the long-term vision that was outlined in the Old Town Specific Plan. We need to get this project started immediately and I am directing staff to move this project forward expeditiously.”

The open-air Marketplace, a city center destination, will be filled with Artisans, Craftsman and specialty shops, showcasing the best Temecula has to offer. The rooftops of each building will contain a terrace restaurant / bar providing excellent views of Old Town Temecula and the City Town Square. The Marketplace will fill in Main street and become the new heart of Old Town Temecula.
